Hands-on Immediate in the aesthetic zone using animal jaws.

2:30 pm – 2:45 pm

Coffee Break

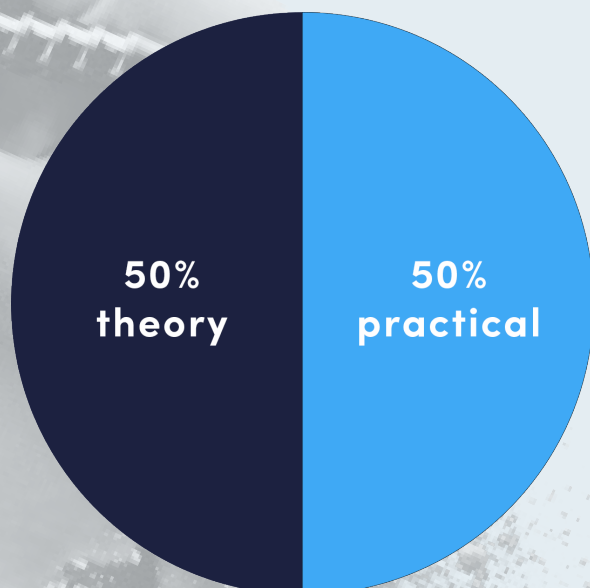

2:45 pm – 4:15 pm

Hands-on Immediate in upper Molar immediate placement delayed load – the use of temporary healing abutments.

4:15 pm

Hands-on Review and Q&A

ON THE DAY

More about the course

This intensive one-day immediate implant course covers immediate implant placement in the aesthetics zone, premolars, molars and in conjunction with sinus work. Delegates will look at different types of delayed loading and the techniques to achieve successful results. They will observe live demonstrations and practicals on animals' heads to enhance their skills. Delegates will get the opportunity to use the latest generation of Alloplastic products with an integrated membrane to achieve predictable results. By the end of this course, participants will have a comprehensive understanding of immediate implant placement and loading techniques, enhanced practical skills, and knowledge of advanced materials, leading to improved patient outcomes and practice efficiency.

ABOUT THE SPEAKERS

Dr Mark Worthing

I have been placing implants since 1998 now, and been taking referrals for approximately 10 years with a keen interest in oral surgery and restorative dentistry.

More about Mark

Mark graduated from Cardiff Dental Hospital in 1994. He spent two years working full time in busy oral and maxillofacial units in Merthyr Tydfil and Bridgend, South Wales, before working in general practice in Cardiff for a year. In 1997 he gained his Fellowship to the Royal College of Surgeons of England (oral surgery).

BDS (Wales) ●

FDS RCS (Eng) ●

Mark has a keen interest in oral surgery and restorative dentistry and has completed a number of implant courses in France, Ireland, Belgium, Holland and Sweden as well as the UK. He has also completed eighteen months of training in advanced surgical and prosthetic implantology at Sheffield University.

ABOUT THE SPEAKERS

Dr Dominic O'Hooley

I qualified from Liverpool University in 1993 and after working in hospital dentistry, I have been committed to private dentistry for over two decades.

More about Dom

- FCGDent (UK), BDS
- MFDS RCS (Eng)
- MFDS RCPS (Glasg)
- MAGDS RCS (Ed)

Placing and restoring dental implants for many years, Dominic is extremely experienced at bone grafting, sinus lifting and aesthetically challenging cases. Dominic enjoys pushing the boundaries and has been deeply involved in exploring the potential of the Southern Inverta implant paradigm. In addition to Inverta, he uses Southern site-specific implants as the core of his implant practice, often in synergy with alloplastic grafting with EthOss and novel bone manipulation techniques. He lectures worldwide and writes extensively in the dental press, becoming someone who has been second to none in exploring forensic detail at dental regulation.
