

# THE REGENERATING BEYOND BOUNDARIES SYMPOSIUM

25 April 2026  
Pravets, Bulgaria

Hosted by Miplant Bulgaria in  
partnership with EthOss

SHAPE THE FUTURE:  
BE PART OF THE SYNTHETIC SHIFT

**ethOss**<sup>®</sup> Grow  
Stronger<sup>®</sup>

# A NOTE FROM DR. PETER FAIRBAIRN

CLINICAL DIRECTOR, ETHOSS REGENERATION

It's a pleasure to welcome you to the next chapter of Regenerating Beyond Boundaries.

What began as a single event is growing into a global conversation. Over the past decade, regeneration has progressed from concept to clinical confidence – yet our journey is far from complete. Each event in this series is an opportunity to go further: to challenge established thinking, to explore what's possible, and to define what comes next.

In Bulgaria, we will continue the dialogue we began last year in Poland, bringing together forward-thinking clinicians and pioneers in bone and tissue regeneration. United by a shared commitment to minimally invasive, patient-centred implantology, this community represents both experience and curiosity – whether you are discovering EthOss for the first time or have been part of its evolution from the start.

More than a symposium, this is a forum for collaboration. Your questions, your insights, and your experiences are what push this field forward. We invite you to engage openly – with our speakers, with one another, and with the EthOss team – as we carry these conversations across borders and into the future.

Let's keep regenerating.  
Let's keep pushing boundaries – together.

**Dr. Peter Fairbairn**

“This symposium isn't just about sharing techniques; it's about challenging ourselves to think differently”

# SCHEDULE | DAY 1

25 APRIL 2026 | SESSION 1

# SCHEDULE | DAY 1

25 APRIL 2026 | SESSION 2

8:30

Registration and Morning Coffee

9:30

Opening Ceremony  
**Prof. Dr. Hodor Fakih**

9:45

New Ideas in Alveolar Bone Regeneration:  
Immune Modulation, Enhanced Host  
Bone Regeneration and Next Generation  
Osteoinductive Synthetic Materials, Clinical and  
Scientific Perspective  
**Prof. Dr. Peter Fairbairn**

11:00

Modern Bone Regeneration in Everyday  
Implantology with EthOss  
**Dr. Aleksandar Momani**

12:00

Lunch Break

13:30

Building Volume Through the Lens of  
Osteoimmunology  
**Dr. Jakub Batycki**

14:30

EthOss - facilitated immediate implantation  
**Dr. Yavor Yaromirov**

15:30

Coffee Break

16:00

Advanced strategies for horizontal and vertical  
augmentation  
**Dr. Nabil Benabadji**

17:00

Loss of Implants in the Maxillary Sinus  
**Prof. Dr. Hodor Fakih**

18:30

Evening Cocktails

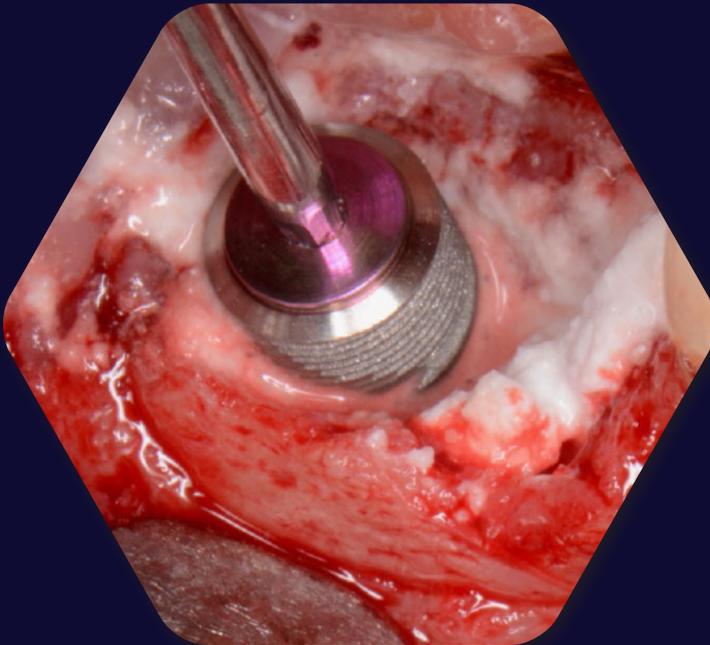

# BEYOND THE PODIUM

## TECHNIQUE SPOTLIGHTS

Join our Xperts throughout the symposium as they showcase short, interactive mini-demos of standout techniques

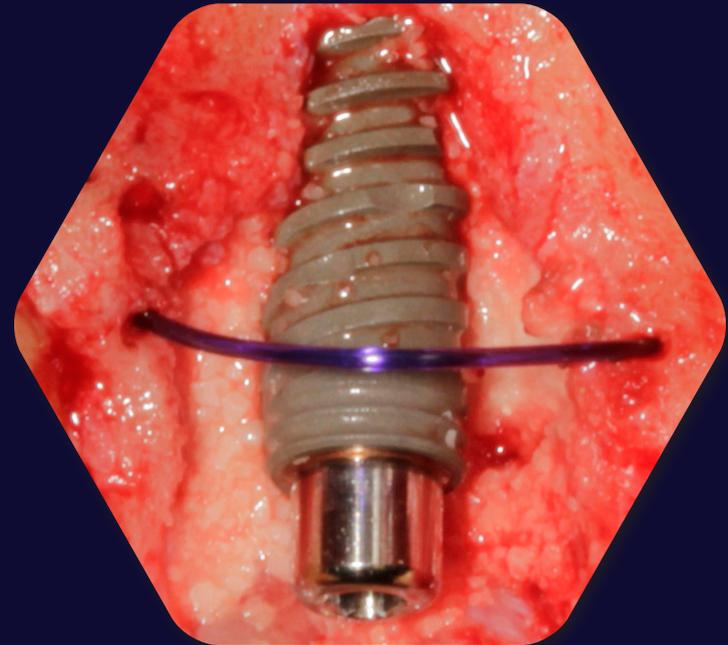

### PUSH-IN TECHNIQUE

A novel technique redefining the placement of implants with zero primary stability, delegates will have the opportunity to enjoy a hands-on demonstration.

### TENTING TECHNIQUE

Discover how to create and maintain space for optimal bone regeneration. The demo will explore using resorbable PDS sutures to create a “dome-device” which can help increase graft stability.

# OUR SPEAKERS

**PROF. DR. PETER FAIRBAIRN**

Globally renowned implantologist and pioneer in alloplastic bone regeneration. With over 20 years' experience, he has placed more than 15,000 implants and lectured in over 50 countries. A published author and key opinion leader, he champions the use of fully resorbable grafts to unlock true bone regeneration and minimally invasive techniques.

**DR. ALEKSANDAR MOMANI**

Founder and chief physician of Momani Dental Centre. His work focuses on in-depth diagnostics, structured and prosthetically guided planning, as well as the application of minimally invasive surgical techniques. Special emphasis is placed on implant treatment in aesthetically demanding areas, management of bone and soft tissue structures, and the achievement of long-term stable, functional and aesthetically balanced results.

# OUR SPEAKERS

**DR. JAKUB BATYCKI**

Dr. Jakub Batycki graduated from the Medical University of Wroclaw in 2009 and moved to the UK to provide NHS and private care. He holds advanced qualifications in oral and maxillofacial surgery, periodontology, and implant dentistry, including a master's degree. With a special interest in surgery, prosthodontics, and implants, he is committed to clinical excellence and education.

**DR. NABIL BENABADJI**

Dr. Nabil Benabadji graduated in 2010 from the University of Mainz, Germany, and gained his Master of Implantology and Dental Surgery in 2019. Working as a specialist in several dental clinics in Luxembourg, Germany and Switzerland. He has placed over 2,000 implants under his belt with experience in socket grafting, sinus augmentation, buccal defects, immediate implants placement, periodontal, cysts and apicectomies.

# OUR SPEAKERS

## DR. YAVOR YAROMIROV

Dr. Yavor Yaromirov graduated in 2006. From 2009 to 2012 he specialised in oral surgery at the Faculty of Dental Medicine at the Medical University of Sofia. His work is focused in the field of Dental Implantology, operations on the jaw bones, sinus lifting and bone grafts. He has attended many courses in oral and maxillofacial surgery.

## PROF. HODOR FAKIH

Prof. Hodor Fakih, DDS, PhD, completed his higher education at the Medical Academy - Faculty of Dentistry, Sofia. He has obtained three specialties: Oral Surgery, Orthodontics, and Maxillofacial Surgery. In 2008, he was elected by the Faculty Council as Associate Professor at the Department of Oral and Maxillofacial Surgery at the Faculty of Dental Medicine, Sofia.
