4:15 pm

Hands-on Review and Q&A

More about the course

This intensive one-day immediate implant course covers immediate implant placement in the aesthetics zone, premolars, molars and in conjunction with sinus work. Delegates will look at different types of delayed loading and the techniques to achieve successful results. They will observe live demonstrations and practicals on animals' heads to enhance their skills.

Delegates will get the opportunity to use the latest generation of Alloplastic products with an integrated membrane to achieve predictable results. By the end of this course, participants will have a comprehensive understanding of immediate implant placement and loading techniques, enhanced practical skills, and knowledge of advanced materials, leading to improved patient outcomes and practice efficiency.

ABOUT THE SPEAKERS

Qualifications

BChD, MSc (Implants) ●

MJDF RCS (Eng) ●

PGcert (Healthcare) ●

Dr Kris Leeson

Kris has a special interest in dental implantology, and has completed his Masters degree in implant dentistry from the University of Warwick.

He completes a variety of implant procedures including immediate load full arch treatments. Kris has a particular interest in the treatment of anxious patients and has gained extensive experience in the use of intravenous sedation.

Kris utilises digital technologies for his implant planning, during surgery and final restorations.

ABOUT THE SPEAKERS

Qualifications

BDS (Wales) ●

FDSRCS (Eng) ●

Dr Mark Worthing

Mark graduated from Cardiff Dental Hospital in 1994. He spent two years working full time in busy oral and maxillofacial units in Merthyr Tydfil and Bridgend, South Wales, before working in general practice in Cardiff for a year.

In 1997 he gained his Fellowship to the Royal College of Surgeons of England (oral surgery), the same year that he joined his father in practice, in Hereford. Mark has a keen interest in oral surgery and restorative dentistry, and has completed a number of implant courses in France, Ireland, Belgium, Holland and Sweden as well as the UK.

He has completed a three year training program in occlusion, and advanced restorative dentistry in the south of England.
